

## TLES4KK.3 Energy-optimized Compressor R600a 220-240V 50Hz

### General

|                       |                             |
|-----------------------|-----------------------------|
| Code number           | 102H4438                    |
| Approvals             | EN 60335-2-34 with Annex AA |
| Compressors on pallet | 125                         |

### Application

| Application                                    | LBP |            |    |
|------------------------------------------------|-----|------------|----|
| Frequency                                      | Hz  | 50         | 60 |
| Evaporating temperature                        | °C  | -35 to -10 | -  |
| Voltage range                                  | V   | 198 - 254  | -  |
| Max. condensing temperature continuous (short) | °C  | 60 (70)    | -  |
| Max. winding temperature continuous (short)    | °C  | 125 (135)  | -  |

### Cooling requirements

| Frequency               | Hz | 50  |     |     | 60  |     |     |
|-------------------------|----|-----|-----|-----|-----|-----|-----|
| Application             |    | LBP | MBP | HBP | LBP | MBP | HBP |
| 32°C                    |    | S   | -   | -   | -   | -   | -   |
| 38°C                    |    | S   | -   | -   | -   | -   | -   |
| 43°C                    |    | S   | -   | -   | -   | -   | -   |
| Remarks on application: |    |     |     |     |     |     |     |

### Motor

| Motor type                                | RSIR/RSCR |      |      |
|-------------------------------------------|-----------|------|------|
| LRA (rated after 4 sec. UL984), HST   LST | A         | -    | 1.7  |
| Cut in Current, HST   LST                 | A         | -    | 6.4  |
| Resistance, main   start winding (25°C)   | Ω         | 55.0 | 15.0 |

### Design

|                                     |                 |               |
|-------------------------------------|-----------------|---------------|
| Displacement                        | cm <sup>3</sup> | 4.01          |
| Oil quantity (type)                 | cm <sup>3</sup> | 180 (mineral) |
| Maximum refrigerant charge          | g               | 150           |
| Free gas volume in compressor       | cm <sup>3</sup> | 1690          |
| Weight without electrical equipment | kg              | 6.3           |

### Dimensions

|                      |                          |    |                           |
|----------------------|--------------------------|----|---------------------------|
| Height               | mm                       | A  | 163                       |
|                      |                          | B  | 159                       |
|                      |                          | B1 | -                         |
|                      |                          | B2 | -                         |
| Suction connector    | location/I.D. mm   angle | C  | 6.2   30°                 |
|                      | material   comment       |    | Cu-plated steel   Al cap  |
| Process connector    | location/I.D. mm   angle | D  | 6.2   31.5°               |
|                      | material   comment       |    | Cu-plated steel   Al cap  |
| Discharge connector  | location/I.D. mm   angle | E  | 5.0   28°                 |
|                      | material   comment       |    | Cu-plated steel   Al cap  |
| Oil cooler connector | location/I.D. mm   angle | F  | -                         |
|                      | material   comment       |    | -                         |
| Connector tolerance  | I.D. mm                  |    | ±0.09, on 5.0 +0.12/+0.20 |
| Remarks:             |                          |    |                           |

- S = Static cooling normally sufficient
- O = Oil cooling
- F<sub>1</sub> = Fan cooling 1.5 m/s (compressor compartment temperature equal to ambient temperature)
- F<sub>2</sub> = Fan cooling 3.0 m/s necessary
- SG = Suction gas cooling normally sufficient
- = not applicable in this area

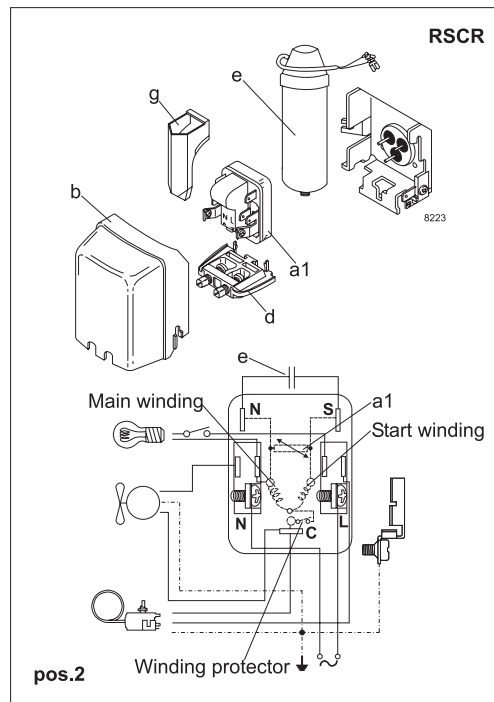

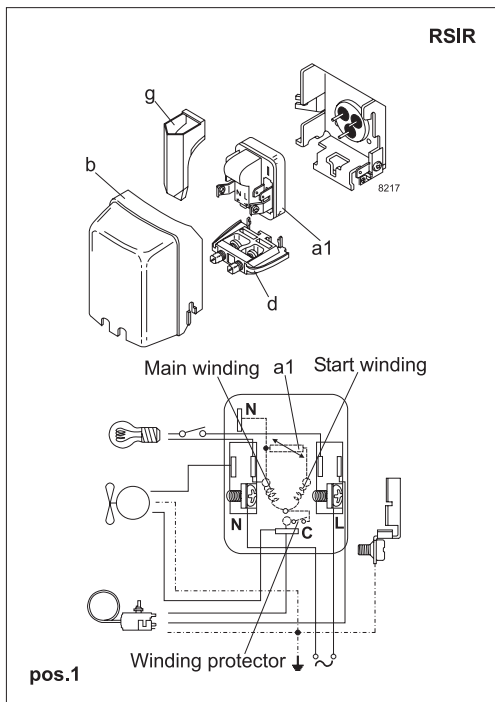

**EN 12900 Household (CECOMAF)** 220V, 50Hz, 2 W PTC consumption incl., static cooling
